**MANUTENZIONE E PULIZIA****CERAMICHE**

I diffusori del modello Belle sono realizzati interamente in ceramica, lavorati a mano secondo antiche tecniche.

Gli oggetti decorati con oro, platino o rame, vengono ulteriormente cotti a fuoco dopo la vetrificazione, per fondere il metallo prezioso allo smalto.

La finitura della versione DELUXE è ottenuta mediante un processo di metallizzazione che consiste nella disposizione in alto vuoto di microparticelle di metallo sulla superficie in ceramica. Si tratta di un trattamento di elevata qualità, ma altrettanto delicato.

Per la pulizia della lampada non utilizzare prodotti abrasivi, né solventi, né alcol. Spolverare solo con un panno asciutto.

**MAINTENANCE AND CLEANING****POTTERY**

The diffusers of the Belle model are made entirely of ceramic, handcrafted according to ancient techniques.

Objects decorated with gold, platinum or copper are further fired after vitrification, to melt the precious metal with the enamel.

The finish of the DELUXE version is obtained through a metallisation process, which involves the high-vacuum arrangement of metal microparticles on the ceramic surface. It is a high-quality treatment, but delicately executed.

Do not use abrasive products, solvents, or alcohol to clean the lamp. Dust only with a dry cloth.
